CST 120

TURNTABLE STRETCH WRAPPER

The CST 120 is an entry level stretch wrapper from Cyklop. The machine is ergonomically very suitable as a substitute for manual wrapping, which is often heavy and strenuous.

The CST 120 has a Ø1500 mm or Ø1650 mm turntable. The stretch wrapping machine is equipped with a photocell that automatically detects the height of the load and the film tension can be adjusted manually by means of a mechanical brake.

The user friendly control panel allows you to store up to 3 wrapping programs to apply quickly. The wrapper is very robust and low-maintenance because the machine is constructed with fewer wear parts. Only a belt is used to move the film trolley, instead of chains, wheels and gears.

Benefits
- Entry level stretch wrapper with good price
- User friendly and ergonomical control panel
- 3 wrapping programs
- Also suitable for small production

Options
- Ramp (for pallet jack or forklift)
- Groundframe

Technical data:	
Turntable	Ø1500 mm of Ø1650 mm
Maximum wrapping height	2200 mm
Rotation speed	Maximum 12 rpm
Maximum load	1200 kg
Maximum pallet size	Turntable Ø1500 mm: 800 x 1200 mm Turntable Ø1650 mm: 1000 x 1200 mm
Height turntable	75 mm
Stretch wrapper	Mechanical brake
	Tension manually adjustable
	Equipped with a photocell for height detection
Film	500 mm width, core 76 mm
Power supply	230 V, 1PH + N + PE, 0.75 KW
