TAPING

Paper tape is the environmentally friendly solution for closing boxes. After use, the packaging box can be recycled, including the adhesive tape. Due to the direct and strong adhesion, paper tape is also suitable for heavy packaging. Another major advantage of paper tape is that it cannot be removed without damaging the box, which has a preventive effect against theft.

Paper tape can be divided into two types: self-adhesive paper tape and gummed paper tape. Gummed paper tape only sticks after the adhesive layer is activated with water. A dispenser is therefore required for application.

**Dispenser**

The paper tape dispenser Lapomatic-S is an electric dispenser for gummed paper tape with a tear strip. The dispenser is robust, reliable, low noise, water resistant and has a soft-touch control panel. All corrosion-sensitive parts are polished or galvanized, which ensures a long lifespan and low maintenance.

The Lapomatic-S has an electronic control system when cutting the paper tape. As a result, the dispenser cuts off the preset length every time, even when the repeat function is switched on.

With the Lapomatic-S, large numbers of packages can be closed per day with paper adhesive tape.

**Options:**

- Outer roll diameter up to 300 mm
- Start with foot pedal

**Technical specifications:**

Speed	55 mtr / min
Dimensions (HxWxD)	250 x 290 x 450 mm
Consumable	Gummed paper tape with tear strip
Roll width	20 - 100 mm
Selected length	100 - 1.150 mm
Outer roll diameter	200 mm*
	300 mm width is optional
Water reservoir	1300 cc
Temperature water	Adjustable (50° - 75° - 100°)
Power	230 V / 50 Hz / 1 phase
	Power cut-off after 30 min without use
Weight	12 kg
Noise	< 70 dB
