TAPING

The M Pac YM is a semi-automatic stainless steel strapping machine with a strapping head on the side, suitable for the food industry or pharmacy. The housing is stainless steel and the parts are protected against rust which makes this model suitable for strapping in humid conditions. The strap coil is located on top of the machine to protect the strapping material in a damp environment.

The machine can be used when the number of packages to be processed daily is limited. The adjustable table height, the simple operation and the low investment costs characterize the M-Pac YM.

The machine is suitable for PP strap 5 - 15.5 mm and makes up to 20 strappings per minute. The M-Pac YM is mobile because of the swivel wheels, so you can use the machine at any desired location.

Advantages

- For PP strap 5 - 15.5 mm
- Up to 20 strappings per minute
- Mobile, with swivel wheels
- Independent of package size
- Strapping head on the side so that dirt does not get into the machine

Technical data:	
Dimensions (LxWxH)	621 x 1078 x 1493 mm
Weight	75 kg
Capacity	Up to 20 strappings/minute
Tension	Up to 1.300 N
Consumable	PP strap
Dimensions consumable	5 - 15,5 mm
Package size (WxH)	Min. 30 x 100 mm
