The tape dispenser ULI is an automatic electronic tape dispenser that can issue different lengths of PP and PVC tape. The device is ideal to use in assembly work in, among other things, white goods, automotive and cable assembly. The length of the tape can easily be adjusted via the display on the device.

Advantages

- Suitable for self-adhesive PP and PVC tape
- Easy to use on a packing table
- Lengths are adjustable via the display
- Dispensing rate 15 metres/min.
- Meets the working conditions noise standard, <70 dB during use
- Cutting blade is shielded
- Cutting tolerance 4 mm
- Tape does not twist
- Robust and rust-resistant frame
- Few parts, low maintenance
- Low power consumption
